

Star Camp Have fun exploring

Vacations not only allow children to relax, they also let kids explore and make memories. This philosophy is what inspired our children's activity program at our family-friendly resorts.

Star Camp is a part of the all-inclusive experience at Iberostar and features more than 140 age-based activities grounded in sound educational principles.

Transforming family vacations with a unique, age-based adventure program that is full of imagination, fun and learning. Activities are split into three groups adapted to the needs of each child.

- Discover a new, artistic dimension by reproducing giant versions of works of art as a team
- Use all the senses in a trendy restaurant atmosphere to guess the dishes on our sensory menu
- Record short films, become journalists, publicists or the stars of an improvised video
- Discover the inner artist by working with clay
- Accept (im)possible challenges and blindly cross a terrain full of obstacles with the help of team members
- Perform exciting scientific experiments, such as creating snow or ice, in true frozen style despite the heat of the pool
- Learn how to get a hard-boiled egg into a bottle or experiment with colors
- Summer classics like darts, capture the flag or Olympic-style events
- Plus, so much more that getting bored is practically impossible
